- To promote the specific interests and relevant capacities at national level
- To improve the provision of services to end-users
- To ensure the sustainability of the EO sector in Romania

Partners

Flowchart

2016

Flowchart

2017

WP2 PORTAL Set-up of the Romanian Earth Observation portal

- Collection of information
- Elaboration of requirements
- Design of the database structure
- Design of the web interface
- Implementation of the portal
- Population of the portal
- Demonstration workshop

Flowchart

2018

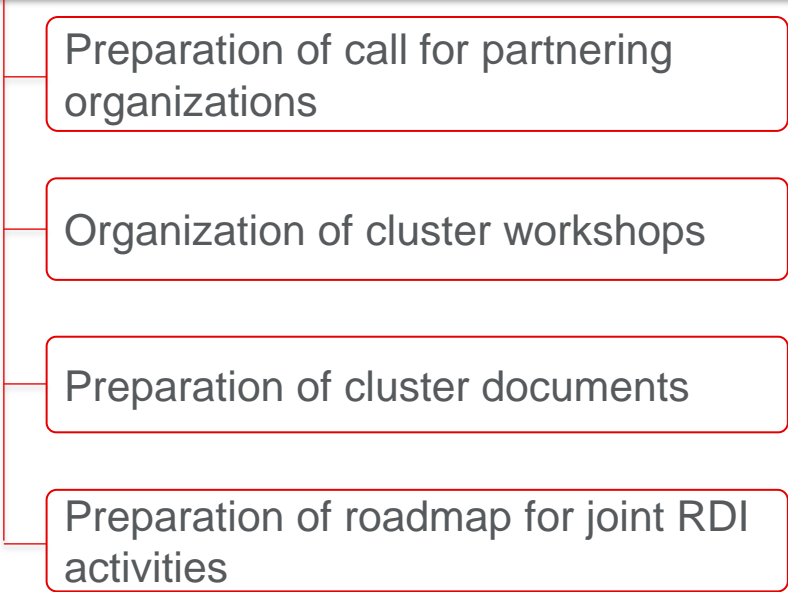

WP3 ANALYSIS Elaboration of SWOT and foresight

- Analysis of the current capacities (strengths, weaknesses)
- Analysis of opportunities and threats (ESA EO programs and missions)
- Delphi surveys
- Scenario workshops
- Sum up of the alternative paths of development

Flowchart

2019

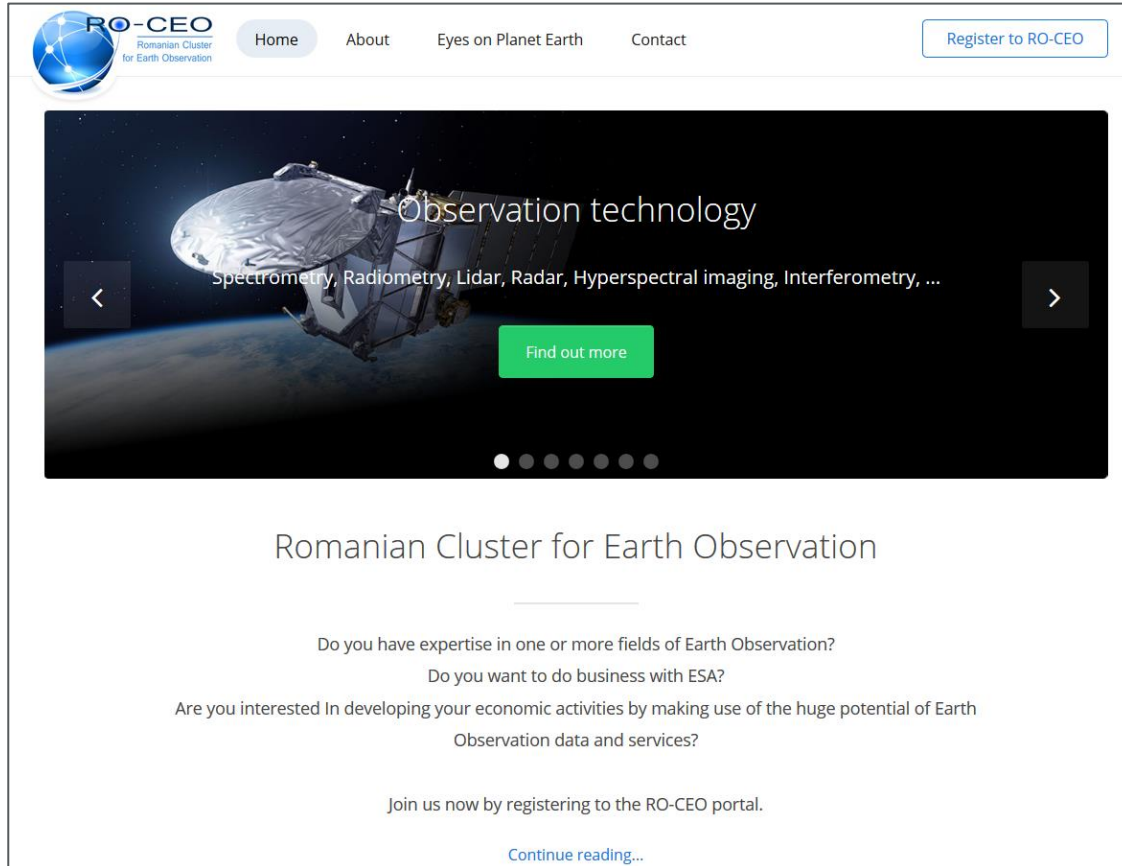

WP4 CLUSTER Set-up of the Romanian cluster for Earth Observation

Expected results

- Preliminary list of relevant organizations, existing infrastructures and competences: tools, projects, data and information sources/portals, experts/frameworks
- Romanian Earth Observation portal
- Database with existing capacities
- Overview on the current situation
- Recommendations on alternative paths of development
- Recommendations for the national strategy in Earth Observation
- Romanian cluster for Earth Observation

On-line Portal - www.ro-ceo.ro

The screenshot shows the homepage of the RO-CEO portal. At the top left is the RO-CEO logo, which consists of a blue globe with white lines and the text "RO-CEO Romanian Cluster for Earth Observation". To the right of the logo are navigation buttons for "Home", "About", "Eyes on Planet Earth", and "Contact". Further right is a button labeled "Register to RO-CEO". The main content area features a large image of a satellite in orbit over Earth. Overlaid on this image is the text "Observation technology" and "Spectrometry, Radiometry, Lidar, Radar, Hyperspectral imaging, Interferometry, ...". Below this text is a green button that says "Find out more". There are also left and right arrow buttons and a series of small white dots at the bottom of the image, indicating a carousel. Below the image, the text "Romanian Cluster for Earth Observation" is centered. Underneath this, there are three lines of text: "Do you have expertise in one or more fields of Earth Observation?", "Do you want to do business with ESA?", and "Are you interested In developing your economic activities by making use of the huge potential of Earth Observation data and services?". At the bottom of this section, it says "Join us now by registering to the RO-CEO portal." and "Continue reading..." with a blue link.

Thank you!
